## Sterling Atlantic 41

LONG-RANGE EFFICIENCY IN A SHORT-RANGE CRUISER

**STERLING YACHTS BUILDS A RANGE OF CLASSIC**, comfortable and efficient motoryachts that blend traditional design with contemporary details and construction. The recent launch of the Sterling Atlantic 41 motor cruiser offers the cruisability of its larger sister ship, the Atlantic 43, in a slightly smaller and more fuel-efficient package.

The original design was custom-built for a customer in Uruguay, and is based on the hull of the 43. The new 41 offers a large stern cockpit, and a newly crafted interior that still honors Sterling Yachts' distinctive modern classic lines. Power is supplied by a 370 hp Volvo Penta D6 electronic engine, which gives the 41 a top speed of 19 knots. The engine's common-rail fuel injection system, double overhead camshafts, turbocharger and aftercooler, combined with its EVC (Electronic Vessel Control) system provide high performance and low emissions.

The Atlantic 41's fuel economy is sure to be a hit with prospective buyers, as its long-range cruising speed (8.0 knots) allows for more than 1,000

nautical miles of travel on a single tank. At 16 knots, the cruiser's fuel range is about 350 nautical miles, perfect for a day tour with friends or family.

Adding to the vessel's fuel-sipping capability is its construction; it is solidly built but with weight-saving construction techniques. The hull is 80 percent cored to the main stringers. Portions of the boat below the stringers (including the keel) are solid fiberglass.

Recent boat shows where the custom-built vessel was displayed created a demand for the new mini-cruiser to be put into production. Its standard double cabin layout is suited for short- to medium-range cruises and sleeps six. A single cabin version is also available at no extra cost to the buyer.

### Sterling Yachts Atlantic 41

#### SPECIFICATIONS

LOA	42 ft., 4 in.
Length	41 ft.
Beam	13 ft., 1 in.
Draft	3 ft., 2 in.
Weight	19,000 lbs.
Fuel Capacity	300 gals.
Water Capacity	150 gals.
Price	\$498,184 (base price, may vary w/custom features)
